How to use this book

Color in any order, with any colors you like. There is no wrong color, and nobody is checking.

Stop whenever you want. A page can take ten minutes or sit half finished for a month. There is no timer.

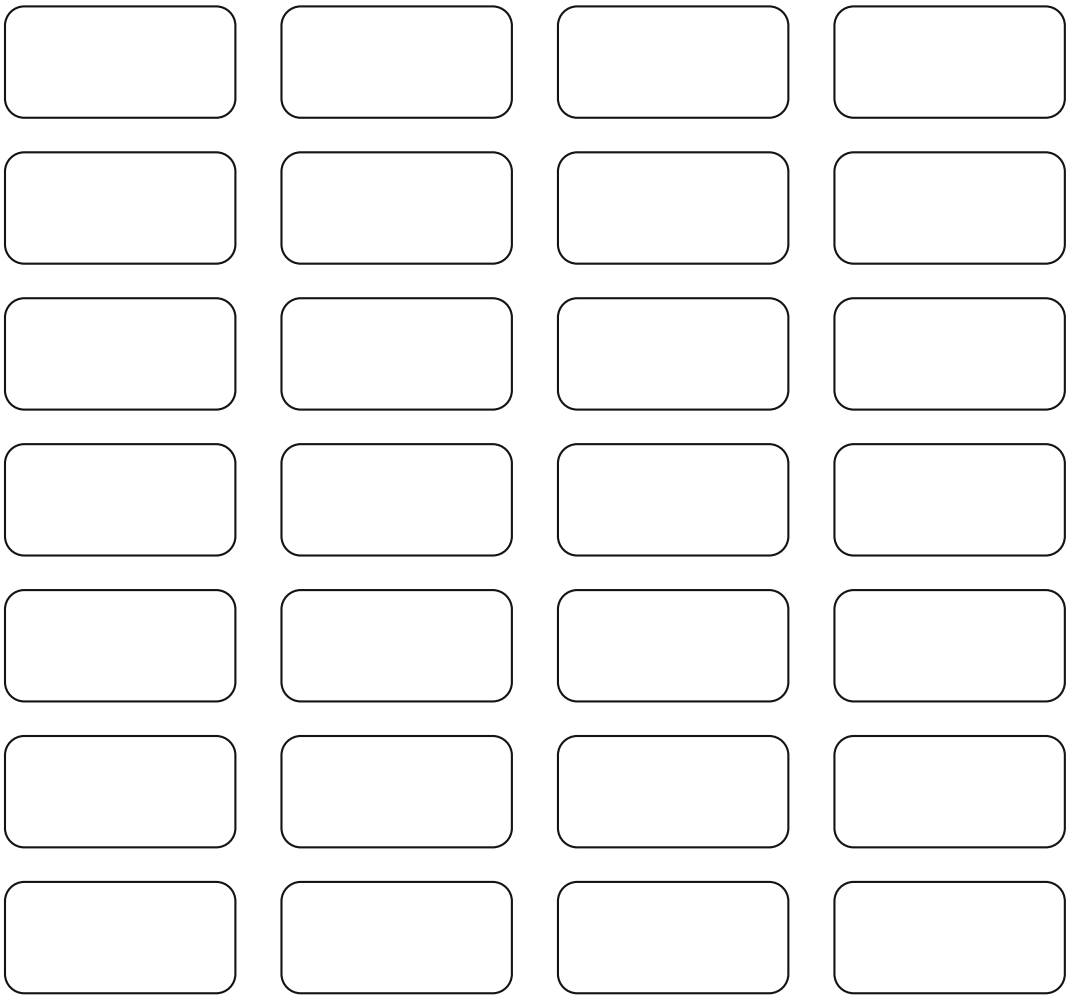

Print the designs on one side of the paper, so markers will not bleed into the next one. A sheet of paper under the page helps with the wettest pens.

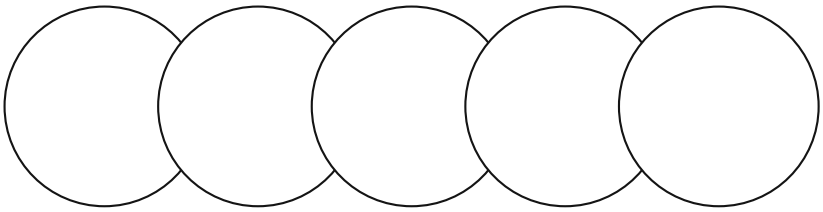

Pens, pencils and gel pens all work here. Try them on the next page first.

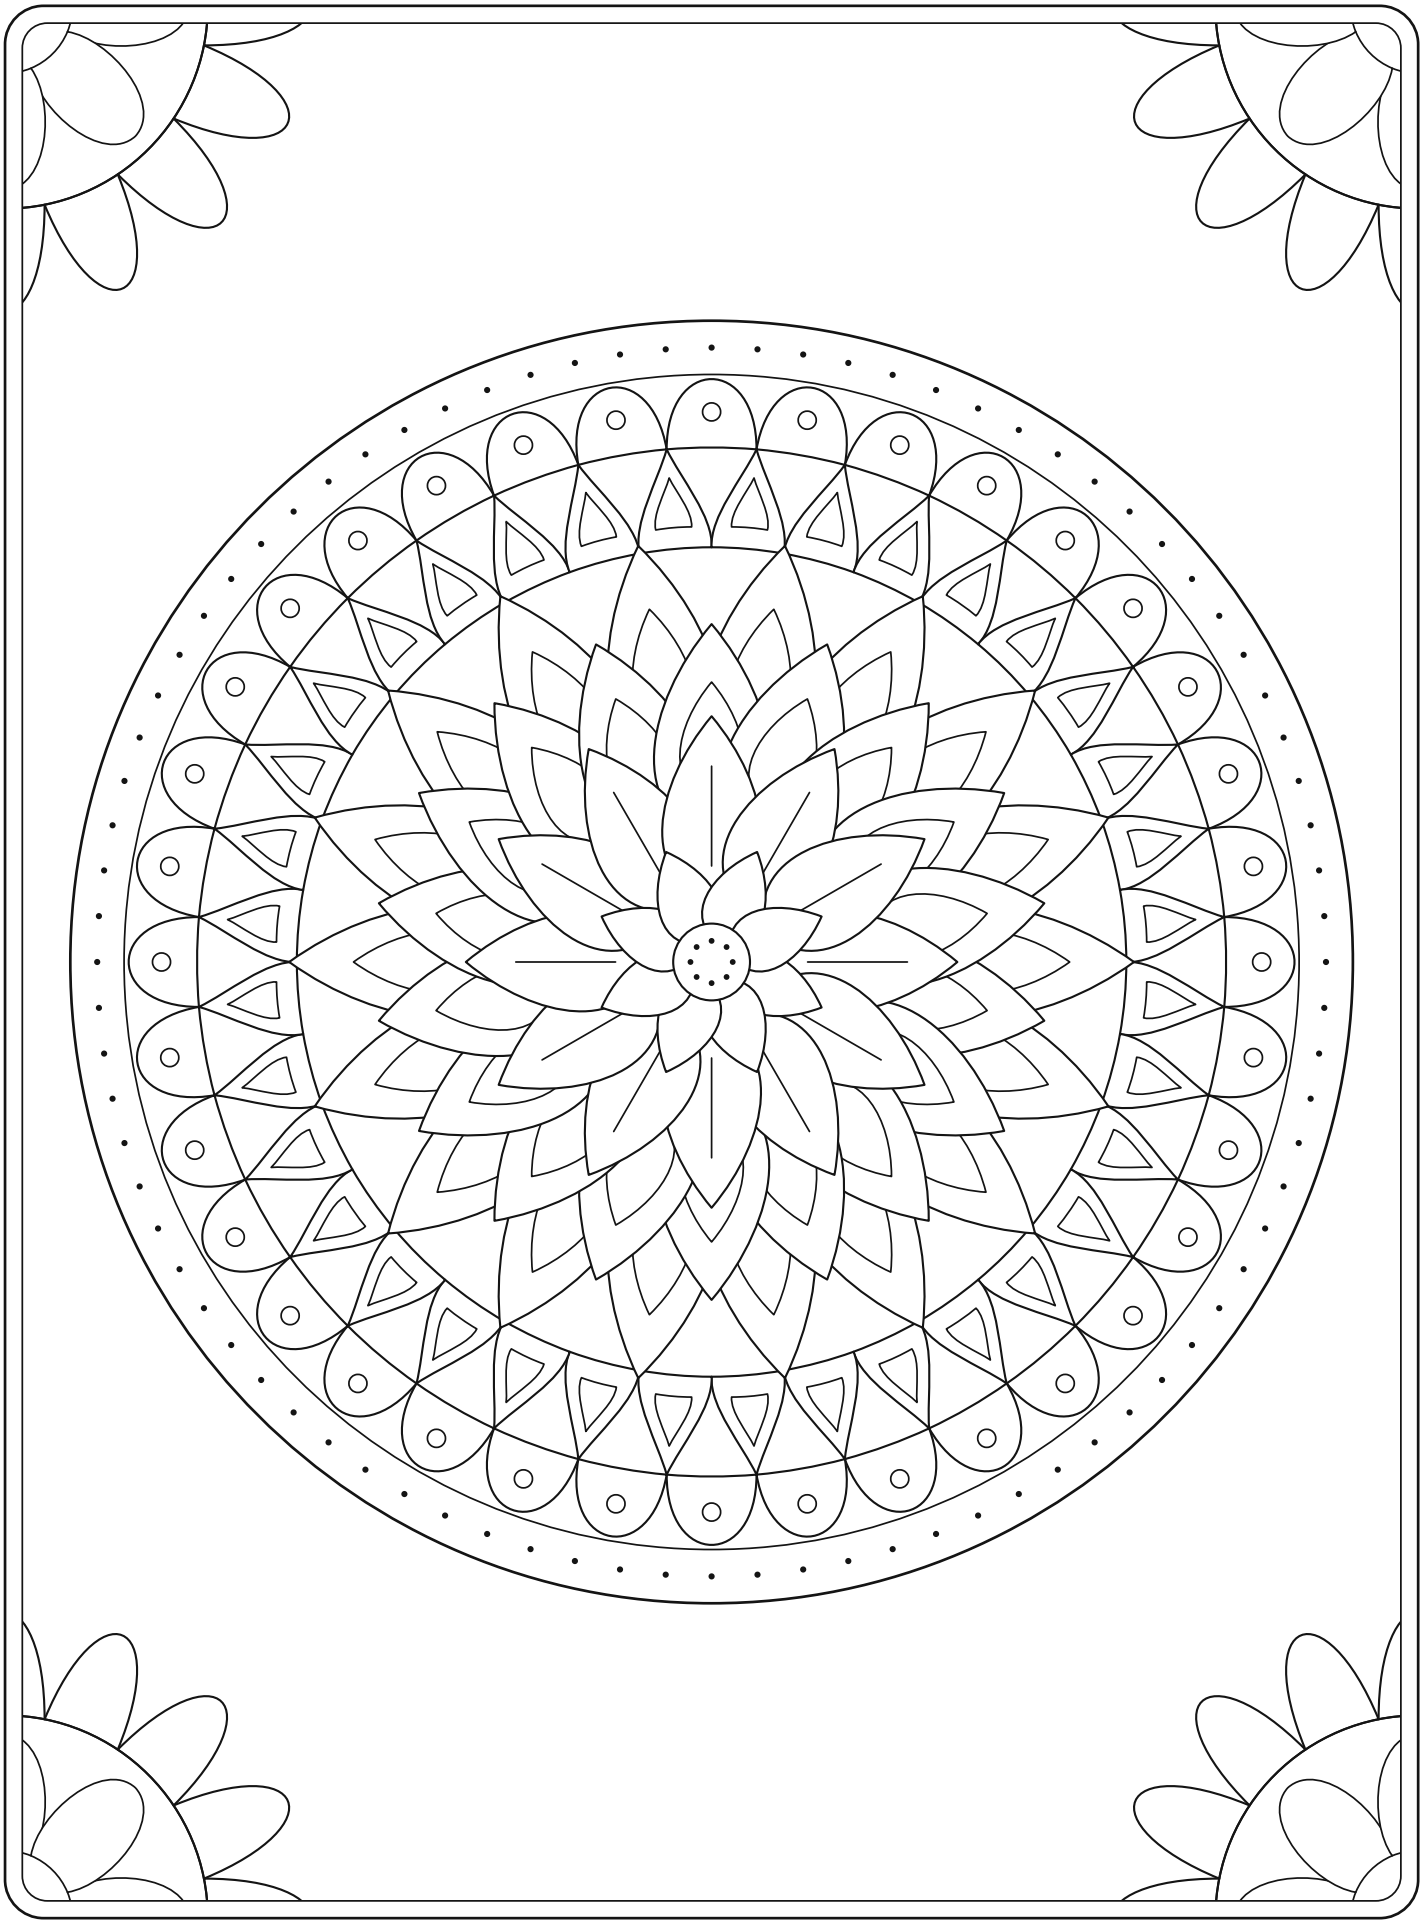

This book is a pastime. It is not therapy and not a diagnosis.

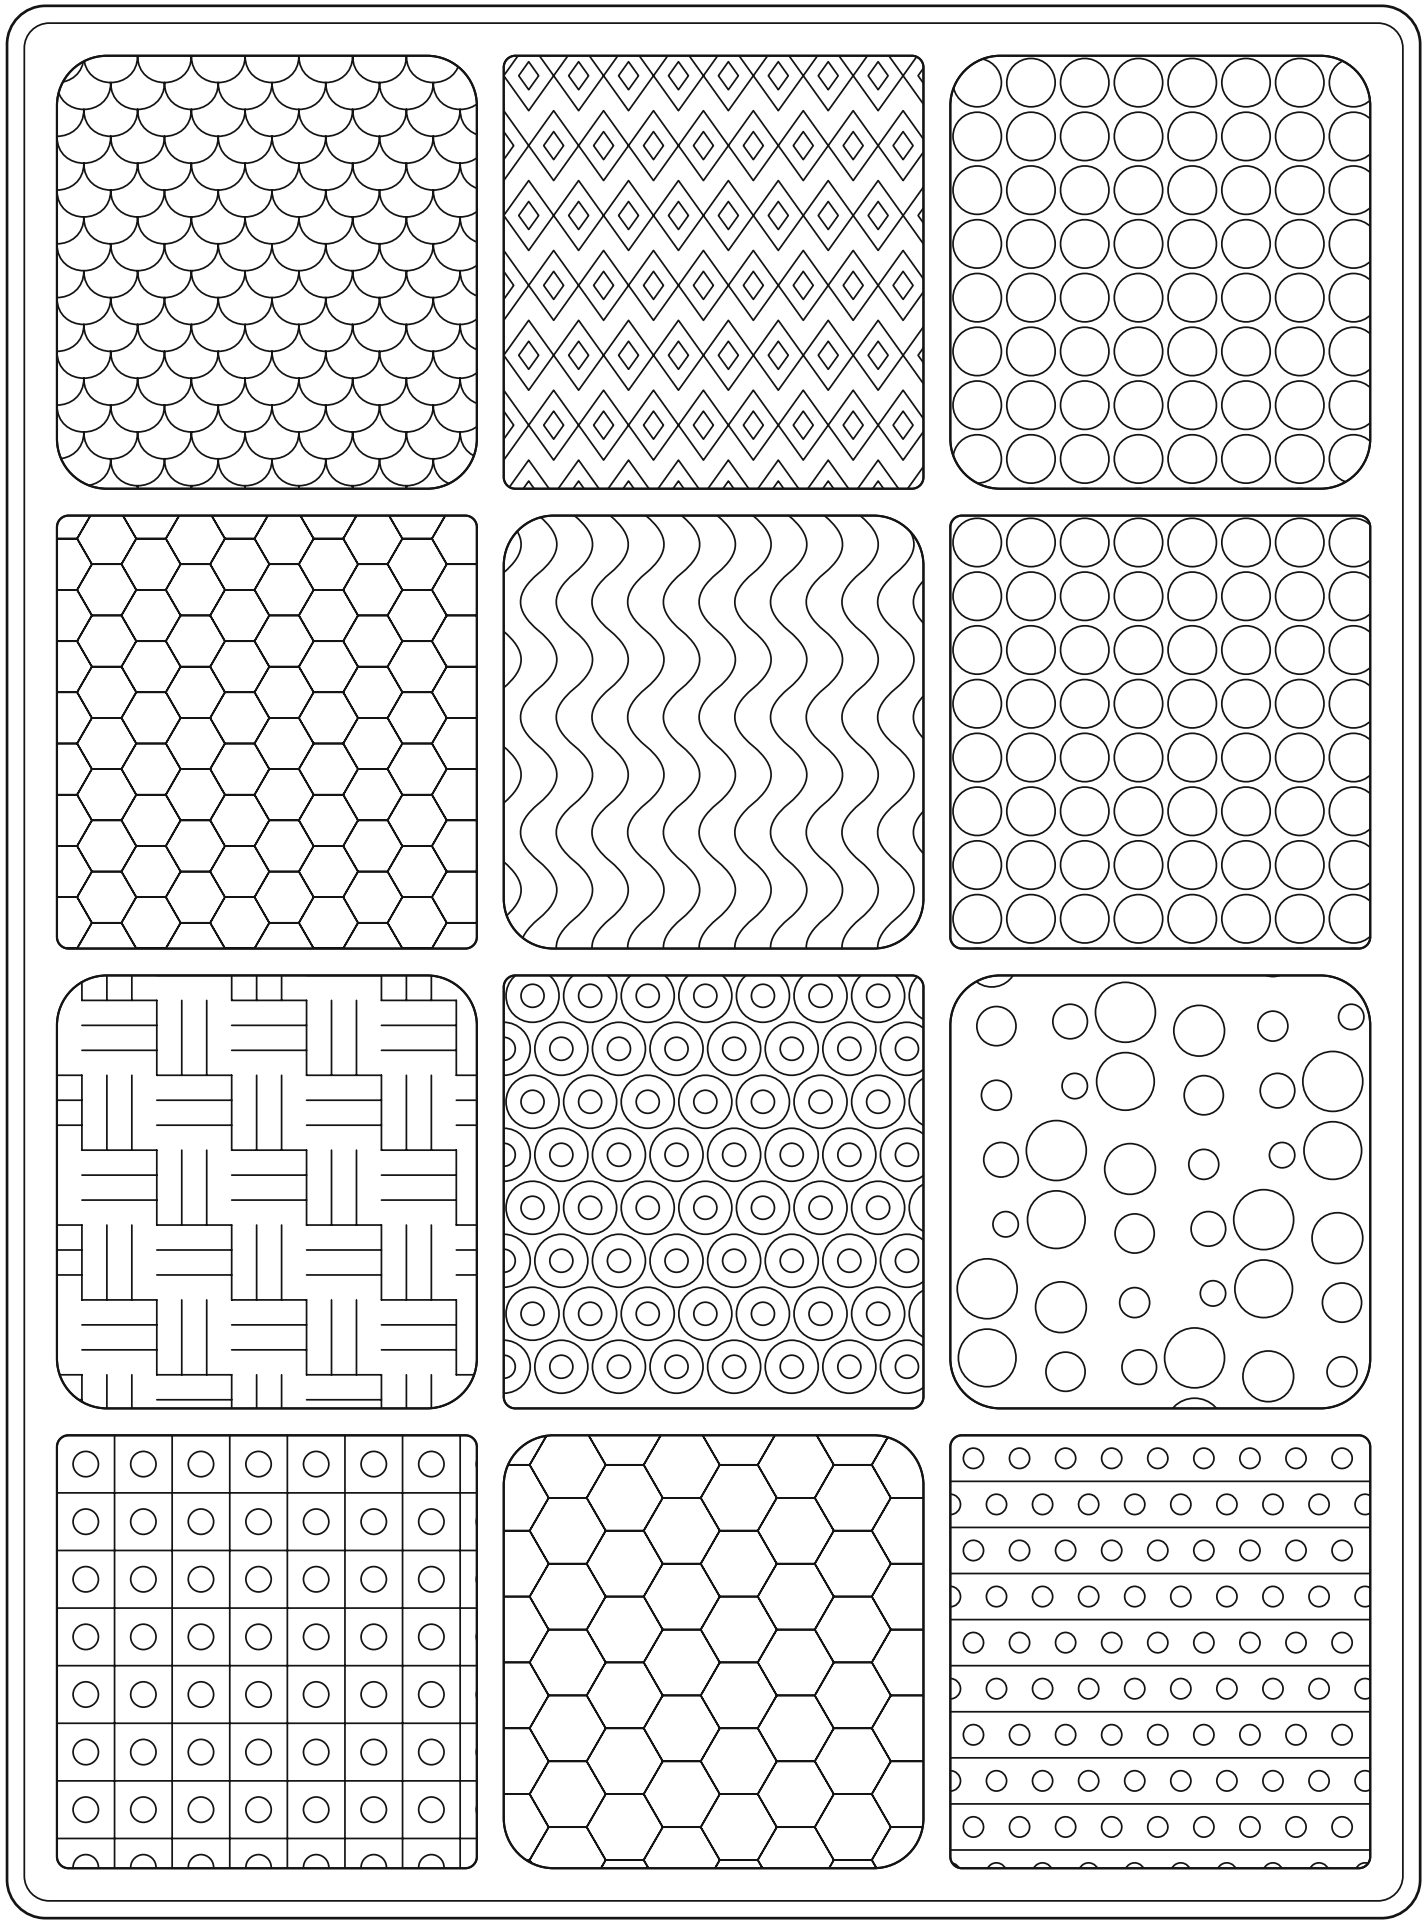

Color test

Try your pens, pencils and markers here. Blend two colors where the circles overlap.
