Every shared home, family or team runs on work that nobody sees: noticing the shoes are too small, booking the appointment, remembering bin day. When that work isn't counted, someone ends up carrying more than anyone realises, and resentment grows quietly. This book helps you see the whole load, kindly and without keeping score. It shows a simple way to check whether the way you share the work can last, how much of a reaction is leftover stress, how to agree what fair means to each of you, and a gentle monthly look-back that catches what weekly chats miss. It ends with helping others well without burning out. Each chapter comes with a workpaper that puts it to use; blank copies are in the companion workbook. It looks at the setup, never at the person.

"See it fairly. Say it kindly."

Book 1	Self-discovery
Book 2	Together
Book 3	Sharing the load
Book 4	Understanding people

Sharing the load

The work nobody sees, and a fair, kind way to share it

For homes, families and teams: seeing the unseen work, one owner per job, and two kinds of fair.
