Take a quiet hour.

Forty designs to color at your own pace: mandalas with exact, layered rings, gardens and wreaths, patterned fields, a lighthouse at dusk, a rainy window, a tea table, a night sky, and a few words to color in.

Clean, fine lines with plenty of open areas, made for colored pencils, gel pens and fine markers. Some pages are intricate, some are simple, so you can pick the one that matches your mood.

Every design is printed on its own page with a blank page behind it, so markers will not bleed through. Two pups, Tidbit and Sugarfoot, hide in a few of the pictures.

- 40 original designs on single-sided pages
- Mandalas, botanicals, patterns, quiet scenes and calm words
- A color test page and a short note on how to use the book
- 8.5 x 11 inches, black and white interior
